Hi Tom,

NOAA and FWS wrote 2015 Biological Opinions related to EPA's Action on Oregon's Temperature Water Quality Standards. I believe I mentioned the NOAA opinion, which includes some additional temperature tolerance literature for T&E species (e.g., since EPA's 2003 Temperature Guidance effort).

Rochelle-
Who wrote the 2015 BiOp you were referring to yesterday (I.E., what agency?)?
Tom

Hi Tom,

Hope you had a good Thanksgiving - tomorrow 10-11 or 1-2 is open right now if one of those times would work for you?

Hi Rochelle-

What's a good time/day to call you? Sorry, I erased your last VM? ☹

Hi Rochelle-

Ben Cope gave me your contact info. I'm writing some comments on IDEQ's Site Specific Water Quality Standard for temperature in the Hells Canyon Reach (Docket No. 58-0102-1102). I'm reading some of the older documents that IPC's references to support their case (e.g. Geist et al., 2006; attached). Perhaps you're familiar with this study and can talk with me about it for a minute or two.
Thanks a bunch,
